

SPRINT ***Batcher Stacker***

The VITS Sprint Batcher Stacker is designed to count, batch, jog and stack shingled product, allowing for continuous production at line speed. Use the Sprint batcher stacker with inline, near line, cover production, direct mail, general commercial and bindery applications.

QUICK CYCLE TIME!

With a sub 3 second cycle time, the Sprint Batcher Stacker enables fewer pieces per batch at higher speeds.

ADVANCED GAPPING TECHNOLOGY

The stream of shingled product is never interrupted! The incoming shingled stream continues to run at line speed while the remaining stream is accelerated into the batching section. This creates clean stream separations and accurate batch counts.

PORTABILITY

With the addition of quick connecting plugs, the Sprint Batcher Stacker can be used in multiple locations. Maximize your investment!

EXCLUSIVE FEATURES

Rated Mechanical Speed	1,200 fpm / 365 m/min
Control Technology	Bosch Rexroth
Batch Count Accuracy	+/- 2
In Line and/or Near Line	YES
Range of Piece Length	4" – 24" / 101 mm – 609 mm
Range of Piece Width	3" – 30" / 76 mm – 762 mm
Minimum Batch Count	25
Maximum Batch Count	1,000 or 8" / 203 mm
Single or Multiple Stream	YES
Folded Ribbons	YES
Flat Ribbons	YES
Mail Sort Capable	YES
Fast Tool Free Set Up	YES
Service Support via Internet	YES
Custom Sizes & Applications Avail.	YES
