

SPRINT Geo-Former

The VITS Sprint Geo-Former uses proven technology to produce crisp, accurate folds on a wide range of stocks. Simply position the web and forget it. The predetermined geometry of the folder eliminates errors in folding that are common in other, less reliable folders.

MULTIPLE RIBBONS CAPABLE

The Geo-Former can fold one ribbon up to six ribbons producing a four to twenty four page signature.

PRODUCED GLUED SIGNATURES

Add a backbone gluing system and now the Geo-Former Folder can produce glued in the backbone signatures, eight to twenty four pages.

ADD TRIMMING

The driven shear splitter can take an edge trim creating a nice, neatly trimmed book. The Sprint Variable Data Rotary Cutter can produce full bleed trim at the head & foot.

EASE OF OPERATION

Like all VITS equipment, new operators can be trained in the operation of the folder in less than a shift.

EXCLUSIVE FEATURES

Rated Mechanical Speed	Up to 2,000 fpm / 609 m/min
Control Technology	Bosch Rexroth
Inline and/or Near Line	YES
Number of Ribbons	1 - 6
Range of Paper	27# - 80# / 40 gsm – 120 gsm
Ribbon Width	6" – 40" / 152 mm – 1016 mm
Quick Make Ready	YES
Preset Geometric Folding Angles	YES
Scoring on Fold Line	YES
Fast, Tool-Free Set Up	YES
Service Support via Internet	YES
Custom Sizes & Applications Avail.	YES
