

Shafted Unwind Stand

Unwind paper, film, foil, paperboard, wax coated paper, kraft paper, foil backed paper or most any other material. With available options like tension control and web guide, the VITS unwind stand will provide years of precision web unwinding and reliable service.

TENSION CONTROL

The available infeed unit will provide consistent and reliable tension control throughout the roll, automatically adjusting to tension upsets within the process line.

WEB GUIDANCE

The available web guide is designed to mount seamlessly onto the frames of the unwind stand. No additional floor space is required and it can be added after installation.

LOW MAINTENANCE

Enjoy years of service with minimal maintenance from the VITS Shafted Unwind Stand.
