

SPRINT RTS SADDLE LINE

Supercharge your saddle stitcher with the VITS Sprint RTS Saddle Line. Produce saddle stitched products in-line with the press or near line utilizing pre-printed rolls. Static page count or variable page count from book to book.

CAPABILITIES

The Sprint RTS Saddle Line can be used to transform a printed web into a 4, 8, 12, 16, 20 or 24 page signature and then collected up to the maximum page count the saddle stitcher can handle.

VERSATILITY

The Sprint RTS Saddle Line can run one, two or three webs, inline or near line, offset or inkjet, static page count or variable page count from book to book, light stock or heavy stock and it can be interfaced with either a new or existing saddle stitch line.

INCREASED THROUGHPUT

Utilize multiple 38" (965 mm) wide webs to increase throughput on higher page count, longer run jobs.
