

SPRINT ***Packaging Line***

The VITS Sprint Packaging Line is designed to maximize production throughput of cut sheet product utilized in the deli, meat, bakery and fast food industries. Eliminate the bottle neck of a multi-staged, labor intensive, time consuming and cost increasing process by switching to a roll to finished product in a single step.

CONVERT MULTIPLE ROLLS!

Increase throughput by running multiple rolls at the same time! Each line can be configured to run 1, 2, 3 or 4 rolls at a time. Start with a single roll system and add additional rolls in the future.

RUN VARIOUS TYPES OF STOCK

- Foil backed paper
- Quilon™
- 15#/18# Wax coated 1 side
- Butcher paper
- Pan Liner
- 10# Menu paper
- Others upon request

VERSATILITY

With the addition of a deep pile delivery on the sheeter, the line can deliver full width, full large cut length into a deep pile delivery. Standard offset paper can also be processed through the line.

EXCLUSIVE FEATURES

Rated Mechanical Speed	1,200 fpm / 365 m/min
Control Technology	Bosch Rexroth
Inline and/or Near Line	YES
Maximum Web Width	60" / 1,524 mm
Number of Webs on One Line	1, 2, 3, or 4
