

Ribbon Deck & Prefolder

Maximize the pagination possibilities from the web by implementing a ribbon deck and/or a prefolder.

CAPABILITIES

Slit the web into multiple ribbons, reposition and interleave them. Add a former folder to produce a wide variety of fold formats.

VERSATILITY

Integrate a ribbon deck with a former folder on a commercial press folder, mount it on the floor in front of a rotary cutter to produce folded covers/signatures or integrate it into a digital finishing line for the production of book blocks or saddle stitched books.

VALUE ADDED

Add a running perf wheel, an inline gluing system or a spot gluer to add value to a simple folded product.

EXCLUSIVE FEATURES	
Rated Mechanical Speed	2,000 fpm / 609 m/min
Independently Driven	YES
Control Technology	Bosch Rexroth
Available Web Widths	20" – 65" / 508 mm – 1651 mm
