

MULTICUT VARIABLE REPEAT SHEETING

Infinitely variable cutoff lengths at the touch of a button provides extremely fast make-ready. The superior control dynamics of the Bosch servo drives and tension monitoring system enables precise cutting accuracy.

WHAT'S YOUR MARKET?

The Multicut can be used in offset, gravure, inkjet and flexographic web applications. The sheeter can be configured for inline sheeting, near line sheeting or both.

PUSH BUTTON SIZE

Achieve faster make-readies with standard push button size change. Simply enter the cut length and the cutter head and knock down brushes will automatically adjust to the correct settings.

ADDITIONAL CAPABILITIES

With the addition of shear slitting, extended deep pile, batching & stacking or tab inserting the Muticut sheeter can be tailored to fit your exact application.

EXCLUSIVE FEATURES

Rated Mechanical Speed	Up to 2,000FPM / 609 m/min
Control Technology	Bosch Rexroth
Print to Cut Accuracy	+/- .010" / .25mm
Integrated Cutoff Control	YES
Service Support 24hr/7/365	YES
Variable Cut	YES
Batch & Stack	YES
On the Run Pallet Changeover	YES
Multiple Stream	YES
Folded Product	YES
Flat Product	YES
Paper Range	25#-280# / 40-350 gsm
Available Width of Sheeter	20" – 65" / 508mm – 1651mm
Available Minimum Cut Length	6" / 152mm
Available Maximum Cut Length	65" / 1651mm
